A website feature some of the datasets and syntax commands used in the book. C

APA: Davidov, E. His research interests include the foundations and applications of structural equation models, panel data analysis, and the empirical testing of rational choice theory. Intended to bridge the gap between the latest methodological developments and cross-cultural research, this interdisciplinary resource presents the latest strategies for analyzing cross-cultural data.

Social and Behavioral Research and the Internet: Advances in Applied Methods are demonstrated through the use of applications that employ cross national data sets such as the latest European Social Survey. Actions Shares.
